

## Minutes of Spy Pond Committee 3 October 2017

Present: Cheryl Miller, Bob Noyes, Harriett Noyes, Brad Barber, Jane Howard, Agnes O'Donnell, Bill Eykamp

Minutes for the 5 September meeting were approved.

A Town Day report said that our booth was successful. Notes for next year: bring a dog water bowl, and try to get a action loop of the crew.

Brad reported on the Conservation Commission meeting with Peter Schweich. Peter's property is next to the sand bar at the 54" drainage outfall into Spy Pond. The sand bar was above water last year and sometimes above water this year. The Conservation Commission was concerned about the sand bar, with plans to investigate further.

The herbicide treatment for brittle Naiad, covering about 30 acres, was apparently successful, even though it occurred about 3 weeks later than optimum.

Brad passed around a typographical and bathymetry map of Arlington Reservoir made by Ella and Steve Mattingly.

The meeting adjourned at 8:45
